SPIRIT OF THE SEA AWARD

Beneath The Sea, through Ocean Pals and its Seas of Tomorrow Society is honored each year to present the Jordan Vidars Memorial Spirit Of the Sea award to that young adult or group of young adults who have taken an active role in creating greater awareness of our oceans. In doing so, they have demonstrated leadership in our industry, called forth a vision of the oceans future, and spoke out with a voice for the sea reflecting insight while promising new directions in understanding. In short, a person or persons making a difference today in the future of our oceans tomorrow and the role those oceans will play in the future of man.

We do so, because such a young man was Jordan Vidars. Jordan was totally involved on the business side of the seas and their future ... working closely with many of today's industry notables in its science, sport, business, art, and philanthropy ... the right-hand person for many, helping them to present their ideas, demonstrate their accomplishments using modern automated, highly computerized systems and techniques to advance their visions.

Beneath the Sea is a "not-for-profit" public service, membership organization dedicated to educating the public about the oceans of the world and the preservation of the marine environment. Ocean Pals is a special project of Beneath the Sea. For more information call 1.914.664.4310 or visit Beneath the Sea's website WWW.BeneaththeSea.org
